Under the provisions of Section 413.031 of the Texas Workers' Compensation Act, Title 5, Subtitle A of the Texas Labor Code, effective June 17, 2001 and Commission Rule 133.305 titled Medical Dispute Resolution - General and 133.308 titled Medical Dispute Resolution by Independent Review Organizations, the Medical Review Division assigned an IRO to conduct a review of the disputed medical necessity issues between the requestor and the respondent. The dispute was received on 09-03-03.

The Medical Review Division has reviewed the IRO decision and determined that **the requestor prevailed** on the issues of medical necessity. Therefore, upon receipt of this Order and in accordance with §133.308(r)(9), the Commission hereby orders the respondent and non-prevailing party to **refund the requestor \$650.00** for the paid IRO fee. For the purposes of determining compliance with the order, the Commission will add 20 days to the date the order was deemed received as outlined on page one of this order.

In accordance with §413.031(e), it is a defense for the carrier if the carrier timely complies with the IRO decision.

Based on review of the disputed issues within the request, the Medical Review Division has determined that **medical necessity was the only issue** to be resolved. The therapeutic activities, exercises and aquatic therapy was found to be medically necessary. The respondent raised no other reasons for denying reimbursement for the above listed services.

This Findings and Decision are hereby issued this 11<sup>th</sup> day of December 2003.

RE: MDR Tracking #: M5-04-0292-01  
IRO Certificate #: IRO4326

\_\_\_ has been certified by the Texas Department of Insurance (TDI) as an independent review organization (IRO). The Texas Workers' Compensation Commission (TWCC) has assigned the above referenced case to \_\_\_ for independent review in accordance with TWCC §133.308 which allows for medical dispute resolution by an IRO.

\_\_\_ has performed an independent review of the rendered care to determine if the adverse determination was appropriate. In performing this review, relevant medical records, any documents utilized by the parties referenced above in making the adverse determination, and any documentation and written information submitted in support of the appeal was reviewed.

The independent review was performed by a \_\_\_ physician reviewer who is board certified in neurosurgery which is the same specialty as the treating physician. The \_\_\_ physician reviewer has signed a certification statement stating that no known conflicts of interest exist between him or her and any of the treating physicians or providers or any of the physicians or providers who reviewed the case for a determination prior to the referral to \_\_\_ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to this case.

### Clinical History

This patient sustained a lumbar spine injury on \_\_\_, when the patient was restraining a teenage boy. He underwent a lumbar laminectomy and fusion on 12/13/02, eventually followed by post operative physical therapy.

### Requested Service(s)

Therapeutic activities, exercises, and aquatic therapy from 03/19/03 through 04/14/03

### Decision

It is determined that the therapeutic activities, exercises, and aquatic therapy from 03/19/03 through 04/14/03 were medically necessary to treat this patient's condition.

### Rationale/Basis for Decision

It is appropriate for one to attend physical therapy following an instrumented posterior lumbar interbody fusion. The physical therapy plan was for a short period of time and the patient had an excellent outcome. Therefore, it is determined that the therapeutic activities, exercises, and aquatic therapy from 03/19/03 through 04/14/03 were medically necessary.

Sincerely,
